RETAIL PRICE LIST

Fruit, Shade and
Ornamental Trees
Vines and Shrubs

Fall 1924—Spring 1925

CONDENSED CATALOG AND PRICE LIST

EFFECTIVE MAY 1, 1924

HOW TO MAKE UP YOUR ORDER

- 1 to 11 apple trees, for instance, carries single lot price.
- 12 to 24 apple trees carries dozen lot prices.
- 25 to 49 apple trees carries 25 lot prices.
- 50 to 99, 50 lot prices.
- 100 to 300 carries 100 lot prices.

The same rule will apply on other lines of trees.

The prices quoted in this list cancel all previous lists and applies to first class trees of the respective sizes listed. Prices are subject to change without notice, and all quotations made are subject to prior sale. Orders are accepted contingent upon strikes, accidents, drought and shortages arising from weather conditions and other unavoidable causes.

TERMS

\$2.00 deposit on orders of \$20.00 and under; 10% deposit on orders over \$20.00; balance cash on delivery.

DISCOUNT FOR ALL CASH WITH ORDER

Orders amounting to less than \$50.00 and paid in full at time of giving or within ten days thereafter will be entitled to additional nursery stock equivalent to 10% of the order. This discount, however, applies only to orders for Fall delivery placed before September 15th and on orders for Spring delivery placed before February 1st.

Orders of \$50.00 or more, cash with order will be allowed a Cash Discount of 1% per month covering the time involved between date of payment and October 1st on Fall orders, and March 1st on Spring orders. No period less than one-half a month will be recognized. No discount is allowed where only 10% deposit is made.

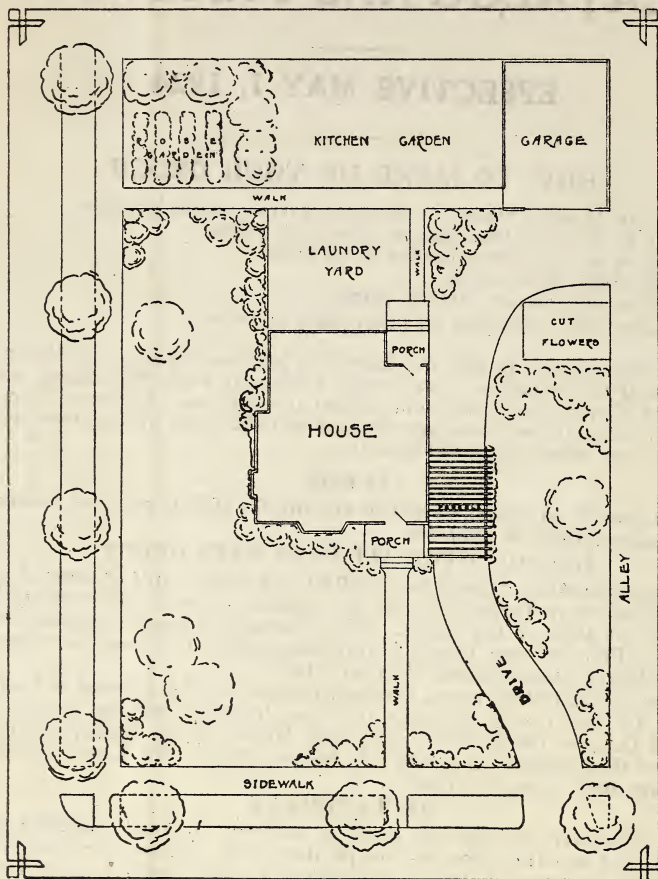

REPLACEMENT

Our trees are sold on the basis of delivery in good condition to the customer, and are thereafter at the planter's risk. If trees are not in good condition when received, notify the company immediately, giving full particulars.

RESPONSIBILITY

The Company will exercise great care and precaution to only supply stock in good condition and true to name and specification. Should any defective stock be furnished, the Company will, upon proof of same, replace all trees or other stock without charges to the purchaser, or may at its election refund cost of same; but, unless otherwise specifically stated in writing, no guarantee of genuineness or warranty of any character shall be construed to hold the Company responsible for any sum greater than the cost to the purchaser of the trees or other stock proven to be defective; nor for the consequential damage of any nature. Any claim for shortage or damage for which this Company might be held liable must be made within fifteen (15) days after the customer's receipt of the stock.

This shows the proper way to plant shrubbery and trees around your home. Notice the planting is kept around the base of the residence and in groups along the walks and drive, leaving the lawn space open.

We are in a position to assist you in selecting the most appropriate and serviceable shrubs for your planting. Our Landscape Department will prepare plans at a very nominal cost based upon the size of your grounds. You will then be certain of getting an assortment of shrubs that will give you the maximum amount of pleasure and satisfaction and avoid the too common experience of having to re-arrange your planting from time to time with its accompanying dissatisfaction. Let us help you on your planting problem.

APPLES

All varieties are available in two-year-old trees, except those marked with an asterisk (*):

CHOICE HOME SPECIALS

Ideal — \$1.00 Each; \$10.00 Per Dozen

This is a comparatively new apple and is therefore not known or appreciated like some of the older and better known sorts. It is a large apple of golden yellow color, firm texture, crisp, sub-acid, good cooking and table apple during its season of July and August. As it becomes better known we believe it will displace the popular Yellow Transparent.

Waldron Beauty — \$1.00 Each; \$10.00 Per Dozen

This splendid variety originated near Oregon City, Oregon, and was introduced by us a number of years ago, and we take pleasure in recommending it to you as a specially fine Autumn apple. It is of medium size, almost full red underlaid with a greenish yellow on the under side; meat is white similar to the Snow or McIntosh Red. The tree is a very heavy producer and the apple has attracted attention at several Fairs.

Vanderpool Red — \$1.00 Each; \$10.00 Per Dozen

This is probably one of the most promising varieties we have listed. It is from medium to large size, depending upon the altitude and conditions under which it is grown. Color, full bright red; very heavy producer and an exceptionally long keeper considering that it is also an apple of high

APPLES—Continued

quality, which combination is rarely found to such a marked degree. No home orchard is complete without it and as it becomes better known it will take its place in the commercial ranks with the very best red apples.

Orengo — \$1.00 Each; \$10.00 Per Dozen

A high-class dessert apple. Almost full red overspread with numerous light colored dots. Flesh crisp, tender and juicy with a small core; flavor mild with a pleasing aroma. Tree hardy and vigorous. Fruit superior to McIntosh Red or Spitzenberg as a dessert apple. October to January.

L. L. Budd

Moorpark
Royal

Wenatchee Moorpark

Tilton—4-6 ft.75 .70

Its large size, rich apricot color, high flavor, uniform ripening, sure and unusual productiveness, with frost resistant qualities, easily places the Tilton far in advance of all other varieties. To the planter who wants just a few for a home planting we strongly recommend the Tilton.

YAKIMENE — \$.75 Each; \$8.25 Per Dozen

This fruit is a cross between a peach and an apricot; is larger than an apricot, but not as large as the average peach. The flesh is a combination of the peach and apricot, and is very delicious. As a home fruit, we especially recommend it.

CHERRIES

SWEET

English Morello		Late Duke		*Wragg	

NOTE—Varieties marked with (*) are available in two-year-old trees, as well as in yearlings.

ROYAL STEWART — \$1.50 Each; \$15.00 Per Dozen

A new variety of the Royal Ann type, originated in Lane County, Oregon, but maturing from four to six weeks later than this standard variety. Is very similar to the Royal Ann in general appearance, is fully as large as the average fruit of this well known variety but is a little sweeter and more pleasant to eat out of hand. Is a good variety for home canning and ripening at the season it does, escapes damage from rains which frequently are experienced when the Royal Ann is ripening. We recommend the Royal Stewart, as a choice family orchard variety. It is also promising as a commercial fruit since it is firmer and a better shipper than the Black Republican.

PRUNES

On Peach Root

Varieties prefixed with (**) are available on both Peach and Myrobolan Root. Those prefixed with (*) are available on Myrobolan Root only. Those with no prefix are on Peach Root only. Varieties on Myrobolan Root, 5c per tree higher:

(Myro Root 5c per Tree Extra)

	Each	Each Per 12	Each Per 25	Each Per 50	Each Per 100
Italian and French 6-8 ft.....	.50	.40	.35	.30	.25
Italian and French 4-6 ft.....	.40	.35	.30	.25	.20
New Oregon; 4-6 ft. up.....	.75	.70	.50	.40	.30
Date Prunes 4-6 ft. up.....	2.00	1.50	1.25	1.00	.75

The New Oregon is thought to be a cross between the Italian and Petite. It is large, oblong and slightly flattened on either side. The fruit has a bloom quite similar to the Italian, but the skin is more like that of the Petite. It blossoms a little later than the Italian and matures a little earlier. The originator, Mr. Andre Vercler, of Salem, has fruited the New Oregon for several years. It has demonstrated its regularity and prolificness by producing a full crop each year. It suffers much less damage from fall rains than does the Italian. It dries on a par with the Italian and as a table fruit, we consider it much superior.

1-year; 4-6 ft.	\$2.00	\$1.50	\$1.25	\$1.00	\$.75

Special Reduced Prices in Large Quantities

This is unquestionably the greatest prune ever introduced and promises to revolutionize the prune industry of the country. Possessing all the good qualities of the French or Petite prune it also has the advantage of size. The Date Prune grades on an average of 30 to the pound as compared with 70 as an average for the Petite, and 55 as an average for the Italian. In addition it carries an average of 50 per cent sugar in its evaporated form. It also has the added advantage of shrinking less when evaporated. To illustrate: It requires 300 pounds of Italian prunes to make 100 pounds dried prunes; 250 pounds of Petite to make 100 pounds dried and only 200 pounds of the Date Prune to make 100 pounds of the dried product.

On account of less shrinkage, large grades and the heavy bearing features of the Date Prune it will yield upwards of \$3.00 against \$1.00 derived from either the Petite or Italian. As a fruit for shipping in its ripe state, or for home use, it is par excellence.

DECIDUOUS ORNAMENTAL TREES

Deciduous trees are those that drop their leaves in the autumn. In the following assortment are varieties suitable for all conditions from slow growing Oaks to the rapid growing Poplars. Varying conditions of soil, altitude and climate calls for trees suitable to these individual conditions. If you are in doubt as to your requirements, we shall be glad to advise with you without charge.

(Note—12 trees of any one kind gets 10% from printed price)

DECIDUOUS ORNAMENTAL SHRUBS

This class of plants succeed almost everywhere and therefore are extensively used. They are inexpensive, easily handled and with a minimum of attention will yield greater returns in pleasure to their owner as well as add more beauty and value to a property than an equal expenditure in anything else. The planting of shrubbery is an investment rather than an item of expense. As they grow in age they increase in beauty and add value to any property. The following list contains a splendid assortment.

	Size	Price Each
ALTHEA—(See Hibiscus)		
AMORPHA— <i>Fruticosa</i>	2-3 ft.	\$.75
AZALEA— <i>Mollis</i>	12-15 in.	3.00
BERBERIS— <i>Thunbergii</i> (Japanese Barberry)	18-24 in.	..75

Camperdown (Camperdownii) Top grafted.....	- 6 ft.	2.75
CHERRY—Prunus cerasus		
Japanese Weeping (Japonica pendula).....	- 4 ft.	2.50
LOCUST—Robinia		
Rose (Hispida)	- 6 ft.	3.00
MULBERRY, Tea's Weeping (Morus alba tartarica pendula)		
	- 6 ft.	2.50
WILLOW—Salix		
Babylon Weeping (Babylonica)	6- 8 ft.	1.50
Babylon Weeping (Babylonica)	8-10 ft.	2.00
Kilmarnock (Caprea pendula)	- 6 ft.	2.50

EVERGREEN TREES

Our Evergreen Trees are all "balled and burlapped" when shipped—that is, dug with a ball of earth, protecting the roots, and then wrapped in burlap, insuring the greatest possible degree of safety in planting. In ordering any of these trees, be sure and indicate on your order the size of tree wanted. We have indicated below the sizes in which each can be furnished. Kindly conform to our list:

	Size	Each
ABIES — Fir		
Colorado Silver (Concolor).....	1- 2 ft.	\$3.00
Colorado Silver (Concolor).....	4- 5 ft.	6.00
ARBOR VITAE — See Thuya		
CHAMAECYPARIS — Cypress		
Retinospora —		
	Size	Each
C. Ret. Pissifera	2- 3 ft.	\$3.50
C. Ret. Pissifera aurea	12-18 ft.	2.50
C. Ret. Pissifera aurea	18-24 ft.	3.50
C. Ret. Plumosa (Plume like Cypress).....	12-18 ft.	2.25
C. Ret. Plumosa (Plume like Cypress).....	18-24 ft.	3.00
CRYPTOMERIA JAPONICA — Japanese Cedar.....		
	2- 3 ft.	2.50
FIR — See Abies		
HOLLY — See Ilex		
ILEX — Holly:		
Dutch (Pyramidalis)	12-18 in.	2.75
Dutch (Pyramidalis)	18-30 in.	3.75
English (Aquifolium) (seedlings).....	2-3 ft.	3.00
English (Aquifolium) (seedlings).....	3- 4 ft.	4.00
English Silver Variegated (Variegata Aurea).....	12-18 in.	2.75
English Golden Variegated (Variegata Aurea).....	12-18 in.	2.75
JAPANESE CEDAR — See Cryptomeria Japonica		

JUNIPERUS — Juniper		
Chinese (Chinensis)	1- 2 ft.	1.50
Exelsa Stricta	12-18 in.	3.00
PICEA — Spruce		
Norway (Excelsa)	1- 2 ft.	2.00
Norway (Excelsa)	2- 3 ft.	3.00
Norway (Excelsa)	3- 4 ft.	6.00
Norway (Excelsa)	4- 5 ft.	7.50
PINUS — Pine		
Scotch (Sylvestris)	24-30 in.	3.50
PSEUDOTSUGA — Douglas Fir		
Douglas Fir (Taxifolia).....	3- 4 ft.	3.00
Douglas Fir (Taxifolia)	2- 3 ft.	2.00
RETINOSPORA — See Chamaecyparis		
TAXUS — YEW		
English (Baccata)	18-24 in.	4.00
Rivers (Baccata Riversii)	18-24 in.	4.00
Irish (Hibernica)	about 12 in.	3.00
Cuspidata	1- 2 ft.	2.50
THUYA — Arbor Vitae		
American (Occidentalis)	3- 4 ft.	4.00
American Occidentalis).....	5- 6 ft.	5.00
Compact Globe (Occidentalis Compacta).....	18-24 in.	3.50
Globe (Occidentalis Globosa)	2- 3 ft.	3.50
Wareana — Siberian	1- 2 ft.	2.50
Wareana — Siberian	2- 3 ft.	3.50

EVERGREEN SHRUBS

On account of retaining their foliage throughout the winter months, this class of shrubs is especially desirable for home beautifying and is fast growing in favor and use west of the Cascades. Many of these shrubs produce very attractive flowers. A good selection and well-arranged planting of evergreen shrubs is sure to give satisfactory results and much pleasure.

	Size	Each
ABELIA — Grandiflora	12-18 in.	\$1.25

PERENNIALS

Per 12

(Note—No order taken for less than six plants of any one kind.)

Field-grown clumps that will give you satisfaction.

Arabis—Rock cress

\$2.25

Low growing plants specially suited to rock work; flowering in small white terminal racemes. Usually commences to bloom in May and continues a long time.

Baby's Breath—See *Gypsophila*

3.00

Bleeding Heart	Each	1.50
Campanula or Bellflower		3.50
Cerastium—Snow in Summer		2.00
Cone Flower or Golden Glow		3.50
<p>A very attractive plant for shrubberies, flowering borders or sides of drives, thriving in any good garden soil; strong, robust grower. Attains a height of 5 to 6 feet and produces masses of double, golden yellow, cactus dahlia-like flowers from July to September.</p>		
Coreopsis		3.50
<p>One of the most popular, hardy plants. The flowers are of a rich golden yellow of graceful form and invaluable for cutting. Begins blooming the latter part of June and will continue throughout the summer and autumn. Grows from 2 to 3 feet in height and succeeds everywhere.</p>		
	Each	Per 12
Digitalis—Foxglove		3.50
<p>Old-fashioned, dignified and stately flower. The strong flower stalks frequently 4 to 6 feet high, rising from rich and luxuriant masses of leaves, always give an appearance of strength to the perennial border. We offer them in mixed colors only.</p>		
Delphinium or Larkspur		3.50
<p>These thrive in almost any soil and are very hardy. Plants growing stately with wonderful flowers produced on long spikes of white and blue.</p>		
English Daisy—Bellis (perenis)		1.75
<p>A fine, hardy border plant; large, daisy-like flowers being produced in great profusion. They are splendid for cut flowers.</p>		
Foxglove—(See Digitalis)		
Garden Pinks		3.50
<p>Large, double flowers of this fragrant plant which will produce flowers all summer. It is excellent for planting in beds and is invaluable for cut flowers.</p>		
Geum		3.50
<p>This has a very attractive, bright, red flower about 1½ inches in diameter. It is a profuse bloomer and the bloom lasts well during the summer. It is a plant suitable for bedding purposes or set in with other shrubs. Attains a height of 18 to 24 inches.</p>		
Golden Glow—(See Cone Flower)		
Gypsophila—Baby's Breath		3.00
Iris (Japanese)		5.50
“ German		3.75
Larkspur—(See Delphinium)		
Lychnis		3.50
<p>Bushy plant, about 2 feet high, furnishing bright color throughout the summer and autumn. Flowers are bright crimson.</p>		
Oriental Poppies		3.50
Shasta Daisy		3.75
